

## Continuation of A Study of Unidentified Flying Objects

9. The analysis of the possibility of existence of sentient beings on other planets of the solar system, at the present time or at earlier times, or on satellites of other planets of the solar system.
10. A discussion of the existence of sentient beings on planets adjacent to the nearest stars, and of the possibility of their transportation to earth.
11. Analysis of the possible existence of sentient beings on planets on distant stars, and the possibility of their transportation to earth.
12. Conclusions about the interpretation of the evidence about observation of unidentified flying objects.
